Short for search engine results page, SERP is the single page that search engines serve in response to a user's search query. Here's an example of a Google SERP: The term SERP isn't unique to any specific search engine — Google, Bing, and Yahoo all serve SERPs to users. And today, no two SERPs are the same.

Guide to Google's Search Engine Results Page (SERP) for 2020  
A search for New York Times is the same as a search for new york times. Tip 5: Find quick answers. For many searches, Google will do the work for you and show an answer to your question in the search results. Some features, like information about sports teams, aren't available in all regions.

Advanced SharePoint Search Guide: What Every Professional ...  
To appear in the search results, an item must match all your criteria. For example, if one criterion specifies searching for items whose name begins with S and you add a criterion to search for items created today, the search results include only items created today whose names begin with S. Tip: You can save a search to use again.
