Aerodynamics, from Greek ??? aero (air) + ???????? (dynamics), is the study of motion of air, particularly when affected by a solid object, such as an airplane wing. It is a sub-field of fluid dynamics and gas dynamics, and many aspects of aerodynamics theory are common to these fields. The term aerodynamics is often used synonymously with gas dynamics, the difference being that ...

Molecular Biology (Stanford Encyclopedia of Philosophy)

Since the first award in 1901, conferment of the Nobel Prize has occasionally engendered criticism and controversy. After his death in 1896, the will of Swedish industrialist Alfred Nobel established that an annual prize be awarded for service to humanity in the fields of physics, chemistry, physiology or medicine, literature, and peace. Similarly, the Sveriges Riksbank Prize in Economic ...

Aerodynamics - Wikipedia

This brief recapitulation of the origins of molecular biology reflects themes addressed by philosophers, such as reduction (see Section 3.1), the concept of the gene (see Section 2.3), and experimentation (see Section 3.4). For Schroedinger, biology was to be reduced to the more fundamental principles of physics, while Delbrueck instead ...

Features on the left nav bar and get to 'Role Services' (doesn't appear in the pic above but will appear for you after several 'next').

HOLT - Physics is Beautiful

Measurement is an integral part of modern science as well as of engineering, commerce, and daily life. Measurement is often considered a hallmark of the scientific enterprise and a privileged source of knowledge relative to qualitative modes of inquiry. [] Despite its ubiquity and importance, there is little consensus among philosophers as to how to define measurement, what sorts of things are ...
