The Psychology of Self-Deception | Psychology Today
Alongside the potential benefits of self-deception there are discussions about the various costs of self-deception, not only for a self-deceiving individual but also for others involved. The first warning about the cost of self-deception could be traced back to Freud (1938/1950) who said that the penalty for repression is repetition.

SELF DECEPTION release today a new ep | METALFORCE
Self-deception is rampant in human affairs. And although too much self-deception is probably a bad thing, a little self-deception may be just what a person needs to get through the day. One should never underestimate the power of positive illusions. For example, psychological studies show that people who are overly optimistic about their own abilities often have enhanced motivation, which ...
