Lawn Mower Won't Start: Maintenance & Repair | Snapper

A lawn mower (also known as a mower, grass cutter or lawnmower) is a machine utilizing one or more revolving blades to cut a grass surface to an even height. The height of the cut grass may be fixed by the design of the mower, but generally is adjustable by the operator, typically by a single master lever, or by a lever or nut and bolt on each of the machine's wheels.

Lawn mower - Wikipedia

Find the engine code on the plate. The engine code is a 12-digit number. The first two digits denote the year that your mower was manufactured. For example, if the first two digits of the engine code are "98," your mower was manufactured in 1998, and "04" would indicate a 2004 Snapper mower.
