Geology (from the Ancient Greek γῆ, gē ("earth") and -λογία, -logia, ("study of", "discourse")) is an earth science concerned with the solid Earth, the rocks of which it is composed, and the processes by which they change over time. Geology can also include the study of the solid features of any terrestrial planet or natural satellite such as Mars or the Moon.

Port Manteaux Word Maker - OneLook

International Journal of Engineering Research and Applications (IJERA) is an open access online peer reviewed international journal that publishes research ..

Symposia: Tuesday | 2019 IEEE GLOBECOM | IEEE Global ...

Port Manteaux churns out silly new words when you feed it an idea or two. Enter a word (or two) above and you'll get back a bunch of portmanteaux created by jamming together words that are conceptually related to your inputs.. For example, enter "giraffe" and you'll get back words like "gazellephant" and "gorilldebeest".

Geology - Wikipedia

Lidar (/ ˈ l aɪ d ɪər /, called LIDAR, LiDAR, and LADAR) is a surveying method that measures distance to a target by illuminating the target with laser light and measuring the reflected light with a sensor. Differences in laser return times and wavelengths can then be used to make digital 3-D representations of the target. The name lidar, now used as an acronym of light detection and ...

Soil Mechanics Laboratory Tests Bing

The creep tests of samples were carried out by using the triaxial apparatus of Global Digital Systems (GDS), UK. The schematic diagram of the triaxial equipment and the stress state diagram of the soil sample in pressure chamber are presented in Fig. 2. The tests design values were calculated according to the physical and mechanical parameters of the samples and the depth of the soils, which ...
