Density gizmo answers activity b - walddesignerin-shop.de

The figure shows that the energy of the transition state is higher than that of the reactants A and B by an amount equal to E_a , the activation energy. Thus, the sum of the kinetic energies of A and B must be equal to or greater than E_a to reach the transition state. After the transition state has been reached, and as C and D begin to form, the system loses energy until its total energy is ...
