The World ' s Greatest Treasure Hunts

The grade (also called slope, incline, gradient, mainfall, pitch or rise) of a physical feature, landform or constructed line refers to the tangent of the angle of that surface to the horizontal. It is a special case of the slope, where zero indicates horizontality. A larger number indicates higher or steeper degree of "tilt". Often slope is calculated as a ratio of "rise" to "run", or as a ...

Treasure hunts have shaped much of world history and much of the world map. And while the X ' s that marked a few spots on that map have been replaced by cities in some cases and long-abandoned mines in others, several treasures still remain undiscovered—plus understanding the factors that created past treasure hunts may just be the best way to get ahead of future ones.
