Airave 3 LTE - Find Help for Your Cell Phone: Sprint Support

ok so I'm having one hell of a time getting my airave to work behind my router (ie, it has never worked). I know sprint's preferred setup is to have the airave device in front of the router and connected directly to the modem, but this thread proves that there's no need for such a setup, and i really don't care to have the airave device take over the setup my my network.

ed 2 Data Services Reset - Cell Phones, Mobile Phones ...

Installation of the AIRAVE should be simple plug and play. AIRAVE uses standard ports to connect to the Sprint network via the Internet. If your AIRAVE cannot connect to the Sprint network because of a unique network configuration, you may need to open the following UDP ports on your switch, router or firewall that the AIRAVE access point is connected to: 53, 67, 68, 500 and 4500.
