USING STEMSCOPES FOR REMOTE INSTRUCTION Synchronous ...  
Guided practice is defined as scaffolded independent practice that occurs before minimally-assisted independent practice. During guided practice, the teacher empowers students to practice skills on their own for the first time, giving concrete, actionable feedback to everyone and additional focused attention to specific learners that need it.

State Edition STEMscopes  
How does STEMscopes help under-performing students? Intervention can be a big challenge in today's time-crunched classrooms. We offer teachers easy, manageable solutions to reach under-performing students such as small-group hands-on guided practice experiments, CLOZE passages, and a breakdown of the language of each standard to make learning the content easily digestible.

Stemsscopes Guided Practice Answer - h2opalermo.it

"STEMscopes is great. Until we began using STEMscopes, students didn't understand that science is everywhere. In kindergarten through fourth grade, they thought science was a book. They didn't see science as being connected to the real world, so they thought that when they left school they'd never use it again.
