Gregory Bateson, Steps to an ecology of the
mind

Gregory Bateson was a philosopher,
anthropologist, photographer, naturalist, and
poet, as well as the husband and collaborator
of Margaret Mead. With a new foreword by his
daughter Mary Katherine Bateson, this classic
anthology of his major work will continue to
delight and inform generations of rea

Steps to an Ecology of Mind - Monoskop
Whether one is reading it for the first time
or returning after a lapse of years, Steps to
an Ecology of Mind is today not the same book
as it was when first published some fifteen
years ago, and for most readers its impact
should be greater. We have changed and the
broad intellectual climate has changed.

Steps to an Ecology of Mind | Bodhi Tree
Steps to an Ecology of Mind is simply a masterpiece. In this collection of seemingly disparate essays, Bateson takes the reader on a journey that connects diverse patterns and offers an insight into a means of thinking systemically about ourselves, our relationships to each other and to the environment.

Gregory Bateson (9 May 1904 – 4 July 1980) was an English anthropologist, social scientist, linguist, visual anthropologist, semiotician, and cyberneticist whose work intersected that of many other fields. His writings include Steps to an Ecology of Mind (1972) and Mind and Nature (1979).. In Palo Alto, California, Bateson and colleagues developed the double-bind theory of schizophrenia.

A Re-Introduction to Ecology of Mind |
Earthzine

This book is the record of an intellectual journey. Steps. One step at a time. The destination, a new science, was just becoming clear as it went to press in 1971. Gregory Bateson died in 1980 but the intellectual journey continues, with increasing urgency,...
