Rational emotive behaviour therapy in the treatment of stress

I recently attended a rational emotive behavior therapy (REBT) training and I began thinking more about using it to reduce my own anxiety. Rational emotive behavior therapy, the first form of cognitive behavioral therapy (CBT), was developed by Albert Ellis in the 1950s. The REBT approach encourages us to dispute irrational thinking to develop healthy emotional self-regulation.

SAGE Books - Stress Counselling: A Rational Emotive ...

Abstract Rational emotive behaviour therapists view stress-related disorders as originating in irrational beliefs (iB's), philosophies and attitudes, as opposed to the stressor. People who suffer from stress differ from people who suffer from emotional or neurotic problems mainly in that the stressed people have iB's about specific, short-term or more readily identifiable events, as opposed to ...
