Stylistics is a branch of applied linguistics concerned with the study of style in texts, especially, but not exclusively, in literary works. Also called literary linguistics, stylistics focuses on the figures, tropes, and other rhetorical devices used to provide variety and a distinctness to someone's writing.

Register (sociolinguistics) - Wikipedia

linguistics, the scientific study of language. The word was first used in the middle of the 19th century to emphasize the difference between a newer approach to the study of language that was then developing and the more traditional approach of philology. The differences were and are largely

Language and Literature: SAGE Journals

Good evidence for this maxim is what you get penalised for when you write essays. If your are vague or ambiguous (i.e. not clear) you can lose marks; if you are over-wordy you can lose marks (readers don't like having to read extra words when they don't have to); if you do not present what you say in the most sensible order for your argument you can lose marks.

Ling 131 - Topic 12 (session A) - Lancaster University

In sociolinguistics, a register is a variety of language used for a particular purpose or in a particular communicative situation. For example, when speaking officially or in a public setting, an English speaker may be more likely to follow prescriptive norms for formal usage than in a casual setting, for example, by pronouncing words ending in -ing with a velar nasal instead of an alveolar ...

linguistics | science | Britannica

Citation styles differ mostly in the location, order, and syntax of information about references. The number and diversity of citation styles reflect different priorities with respect to concision, readability, dates, authors, publications, and, of course, style.
