High Output Management PDF Summary - Andrew S. Grove ...
Andy's formula for high output management is: A manager's output = The output of his organization + The output of the neighboring organizations under his influence . The principle is that a manager's output should not be focused on how much work he is able to produce, it should be measured on how much output his organization (team) and any neighboring team he influences outputs.

A Summary of High Output Management by Andy Grove
Summary of High Output Management by Andrew S. Grove by Instaread analyzes Grove's book that theorizes that globalization and the information revolution have changed the work place, making people more replaceable.
