Symantec Backup Exec Desktop Agent (DLO) is the program for backing-up data from your computer to the university's central backup server. By default, backups will be made of information stored in your Documents folder. Backup Exec (DLO) backs up your data each time you save and/or close a file that is stored in your Documents folder.

Netbackup Dlo Admin Guide

For older versions of DLO, a recovery password had to be manually established using the DLO command line interface. The recovery password is used to encrypt each user's encryption key so the key can safely be stored on the File Server. DLO encrypts user data using a user-specific, randomly generated encryption key.
