In a previous article, I went over 14 examples of documentation mistakes you might be making. Today, I'm going to show you 10 examples of what makes great end user documentation. I should clarify that end user documentation does not serve the same purpose as technical documentation, so you shouldn't write them the same way. Technical documentation is meant to teach somebody everything there is ...

User's Manual Template

A User Guide on paper is less likely to be useful to "casual" users who make only occasional use of the system. Experience says that such users will rarely consult a manual. So for them the bulk of the User Guide information has to be available on line, supported by a good indexing system and (ideally) some diagnostic wizards.
