Salivary gland diseases (SGD) are multiple and varied in cause.. There are three paired major salivary glands in humans – (the parotid glands, the submandibular glands, and the sublingual glands), and about 800-1000 minor salivary glands in the mucosa of the mouth. The parotid gland is located in front of the ear, and it secretes its mostly serous saliva via the parotid duct (Stenson duct ...

Referred pain, as defined by Anderson, is “ pain felt at a site different from the injured or diseased organ or body part.”¹ Radiating pain, however, is not defined by Anderson; radiating pain is more commonly used in connection with pain perceived in somatic nerve and spinal nerve root distributions (i.e. the dermatomes that all physicians learn early in their training).

Referred Pain vs.Origin of Pain Pathology

Underwood's Pathology (formerly General and Systematic Pathology) is an internationally popular and highly acclaimed textbook, written and designed principally for students of medicine and the related health sciences. Pathology is presented in the context of modern cellular and molecular biology and contemporary clinical practice.
