In some cases, you may also find free books that are not public domain. Not all free books are copyright free. There are other reasons publishers may choose to make a book free, such as for a promotion or because the author/publisher just wants to get the information in front of an audience. Here's how to find free books (both public domain and otherwise) through Google Books.

## THE ACCIDENTAL SUPERPOWER

by Peter Zeihan | Kirkus Reviews

The Accidental Superpower is one of the most interesting books I have read dealing with geopolitics in a long time and even if it turns out entirely wrong provides plenty of food for thought. I recommend this book for anyone interested in geopolitics or the way in which geography and population has shaped history and the forms and identities of nations.

and demographic factors that have supported the US superpower status is enlightening, particularly when compared to the rest of the world. Zeihan's analysis is brilliant but imperfect. First his predictions

Peter Zeihan—Geopolitic Strategist  
"The Accidental Superpower"  
(Superpower) is a surprisingly interesting and powerful analysis about the geopolitical state of the world. The author, Peter Zeihan, uses regional histories, geographic topographies, demographic trends, and economic data to make predictions about the conditions of specific countries between 2015 and 2030.
