First off, I'm a huge Patrick Lencioni fan. I recently read The Advantage: Why Organizational Health Trumps Everything Else In Business, and this book reads differently than his typical work in that it's not written in fable format. Being a fan of his typical style, I still found this book very engaging, and extremely thought provoking.

The Advantage (Book Summary)

The Advantage is another of Patrick Lencioni's business books, yet unlike all others (that I've read) this one is not written as a business novel. Instead it is a bit more like a normal business book then it summarizes some of the core ideas of Lencioni's earlier books.
