Hippos, meaning "horse" is an ancient Greco-Roman city in the foothills beneath the Sussita Mountain, located near the present-day Kibbutz Ein Gev in the Northern District of Israel. Although there is evidence of earlier settlement in situ, Hippos was established during the mid-3rd century AD as a colony, after the Seleucids sized control of territories previously controlled by the Ptolemies.

A Companion to the Archaeology of the Roman Republic ...

Study of the Roman world is incomplete without a good understanding of the archaeological evidence for the development and spread of Roman society. The story of Roman expansion is not told just through history and art history. Knowledge of the great wealth of other archaeological remains that constitute the Roman military and civilian landscape is fundamental for understanding the spread of ...

Roman Baking - When at Home, Bake as the Romans Baked ...

Although the focus is on the Greco-Roman period, the methods and theories explained within the text can be applied to other periods in history. The areas covered include text as material culture, images, artifacts, spaces of medicine, and science and archaeology.

The Archaeology Of The Roman

The Journal of Roman Archaeology (JRA) is an international journal concerned with Italy and all parts of the Roman world from about 700 B.C. to about A.D. 700. JRA covers a wide range of topics such as Roman history, epigraphy, numismatics, underwater archaeology, pottery, architecture, sculpture, and mosaics.

Journal of Roman Archaeology

Kevin Greene shows how archaeology can help provide a more balanced view of the Roman economy by informing the classical historian about geographical areas and classes of society that received little attention from the largely aristocratic classical writers whose work survives.

(PDF) The archaeology of the Roman economy | Ahmed Hosein ...

In JRA 15 (2002) 20-44, M. Bradley argued that Roman fullers were not involved in the finishing of cloth as part of the textile-manufacturing process, but acted solely as commercial laundrymen; further, he questioned the archaeological evidence used to identify fulleries. His paper contains a number of misconceptions, especially in the use of archaeological evidence.

Survey Archaeology in the Roman World | SpringerLink

Greene's well-documented point is that an archaeology of the ordinary provides systematic, patterned information on everyday Roman things in the economy that were quite beneath the notice of ancient writers, or simply not documented because they occurred outside of Italy or the major centers.

According to an article on Archaeology News Network , the baths at Rafina represent some of "the most evocative Roman ruins in the country." Notwithstanding, the collapse of these Roman baths in the 6th century is actually the story of the end of a cultic center that thrived across the Roman state.

Oxford Handbook of the Archaeology of Roman Germany ...

A considerable feature of Roman civilization was the creation and support of a dense network of urban settlements. In this respect the case of Italy is even more remarkable if one considers that – besides the presence of a megalopolis like Rome (with its one million inhabitants) – there existed about 430 urban centers scattered all over the peninsula.
