Amazon.com: Customer reviews: The Art of Unit Testing ... The Art of Unit Testing, Second Edition guides you step by step from writing your first simple unit tests to building complete test sets that are maintainable, readable, and trustworthy. You'll move quickly to more complicated subjects like mocks and stubs, while learning to use isolation (mocking) frameworks like Moq, FakeItEasy, and Typemock Isolator.

The Art of Unit Testing: With Examples in .NET by Roy Oshero

The book is called "The ART of Unit Testing" for a reason. Roy Oshero is just as concerned (if

## Read Free The Art Of Unit Testing Second Edition

not more concerned) with explaining how to write quality tests as he is with how to write a functioning test and for good reason - there's no point in writing tests that no one will want to run or understand later!

The Art of Unit Testing: with examples in C#: Roy Osherove ... The Art of Unit Testing builds on top of what's already been written about this important topic. It Unit testing, done right, can mean the difference between a failed project and a successful one, between a maintainable code base and a code base that no one dares touch, and between getting home at 2 AM or getting home in time for dinner, even before a release deadline.
