The Black Swan Summary - Four Minute Books

A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random, and more predictable, than it was. The astonishing success of Google was a black swan; so was 9/11.

The Black Swan is the second volume of his 4-volume body of work on uncertainty, called "Incerto." Antifragile is the fourth. First of all, this has nothing to do with the (in my opinion good) movie Black Swan. This book is about statistics, probability, and how we often falsely use those to estimate the likelihood of real-life events.
