The Boy Who Loved Math... The Improbable Life of Paul Erdos ...

What I love most about The Boy Who Loved Math was that it really wasn't about math. It's about the boy. Paul Erdos was something, a right. A real "character." Typically, I've come to think about the mathematically centric as people who are very logically minded, people v love rules. As you learn on the second page, Erdos was ...

The Boy Who Loved Math

Math is woven into the lively writing (Mama loved Paul to infinity. Paul loved Mama to 8, too!). The wonderfully vivid artwork, where ideas from the text are clarified, also uses decorative elements to support the idea that Erdos saw the world differently—numerically.

Review of the Day: The Boy Who Loved Math by Deborah ...

Praise for The Boy Who Loved Math "Erdos's unconventional brilliance shines through on every page, and extensive author and illustrator notes (including Pham's explanations of the mathematical concepts she works into each illustration) will delight readers with even a fraction of Erdos's interest in math."

The Boy Who Loved Math - Brain Power Boy

**Description from Amazon: Most people think of mathematicians as solitary, working away in isolation. And, it's true, many of them do. Paul Erdos never followed the usual path. At the age of four, he could ask you when you were born and then calculate the number of seconds you had been alive in his head. But he didn't le...
