Bipolarity and Bipolarization in the Cold War Era David P. Rapkin, William R. Thompson, and Jon A. Christopherson Journal of Conflict Resolution 1979 23 : 2 , 261-295

The politics of bipolarity and IPE in contemporary times

Any supposed international power structure that owes its existence to a single mastermind is not an international power structure at all. Even Joseph Stalin, absolute dictator of the Soviet Union for decades, did not "create" the bipolarity of the Cold War era.

Polarity (international relations) - Wikipedia

Bipolarity can be defined as a system of world order in which the majority of global economic, military and cultural influence is held between two states. The classic case of a bipolar world is that of the Cold War between the United States and the Soviet Union, which dominated the second half of the twentieth century.
