Early Enlightenment 1650-1750- Main influencers Hobbes and Locke. Pull away from religious reasoning. Reason based on new science.

Early Enlightenment Flashcards | Quizlet

In the early Enlightenment, especially in France, the emphasis is upon the discernment of an objective rational order, rather than upon the subject's sensual aesthetic pleasure. Though Descartes' philosophical system does not include a theory of taste or of beauty, his mathematical model of the physical universe inspires the aesthetics of French classicism.

Enlightenment (Stanford Encyclopedia of Philosophy)

enlightenment [1] enlightenment. The term "Enlightenment [2]" refers to a loosely organized intellectual movement, secular, rationalist, liberal, and egalitarian in outlook and values, which flourished in the middle decades of the eighteenth century.

The Enlightenment | Boundless Art History

Some consider the publication of Isaac Newton's Principia Mathematica (1687) as the first major enlightenment work. French historians traditionally date the Enlightenment from 1715 to 1789, from the death of Louis XIV of France until the outbreak of the French Revolution that ended the Ancien Regime.

What Was the Enlightenment? | Live Science

Started by the preeminent philosophers of the day, the Enlightenment era lasted from about 1650 to 1800, promoting science, reason, and intellectual exchange.
