Economics Final Exam Flashcards | Quizlet

The Economist is intended for a highbrow, well-educated, upper-class audience, and it shows. Most of its writers (who don't attach their names to articles, but rather hide behind pseudonyms or don't give a name at all) are young and fresh graduates of Oxbridge.

The Economist - RationalWiki

Economist A person, especially but not necessarily an academic, who studies how people produce, trade, and use goods and services. Economists look at how different actors, such as individuals, companies, and governments, interact with one another to maximize the fulfillment of their needs through the use of scarce resources. Economists also study supply ...
