Impossible Builds | The Floating House | Episode 3 | PBS The Floating House is part of a master plan including five proposed guest houses based on the repetition of a generic vernacular house. Located on a remote island in Lake Huron with a harsh seasonal climate, an on-site construction process would have been difficult, so the 2,200-square-foot house was built on a floating steel pontoon structure at the contractor's lakeside workshop and then ...

Houseboat - Wikipedia

The Floating house was designed for French developer H2ORIZON, that specialize in construction of floating structures, by Singapore-based architect Dymitr Malcew. The main goal of the project was to design a house that impacts surroundings in a most minimal way, but at the same time offers flexibility and out of the box living experience.
