Moreover, despite being a global phenomenon the fourth industrial revolution in reality obviously always was a race between countries and territories across the world to change the face and future of production, manufacturing and so forth. The stakes are high, the race for Industry 4.0 leadership has accelerated and the differences in views and approaches and political agendas are clearer than ever.

Winning the global race on ... - The Fourth Revolution

The Fourth Revolution: The Global Race to Reinvent the State. The race to get government right is not just a race of efficiency. It is a race to see which political values will triumph in the twenty-first century—the liberal values of democracy and liberty or the authoritarian values of command and control. The stakes could not be higher.
