The Ghost in the Machine is a 1967 book about philosophical psychology by Arthur Koestler. The title is a phrase (see ghost in the machine) coined by the Oxford philosopher Gilbert Ryle to describe the Cartesian dualist account of the mind-body relationship. Koestler shares with Ryle the view that the mind of a person is not an independent ...

The Ghost in the Machine reads like a blow-by-blow account of an intra-disciplinary battle in psychology and philosophy departments. Since I am neither a psychologist or a philosopher, most of the text was dry and uninteresting. Koestler does shift his approach and try to speak to readers that aren't university professors in a few instances but ...
