The Hyperspace of Consciousness - Jet

Consciousness is a term that refers to the relationship between the mind and the world with which it interacts. It has been defined as: subjectivity, awareness, the ability to experience or to feel, wakefulness, having a sense of selfhood, and the executive control system of the mind.

The Hyperspace of Consciousness
Entering the DMT hyperspace allows us to leave our human bodies and reconnect with the other spiritual beings that are waiting there. It is why there is that intuitive feeling of being ' home ' . It is our true birthplace, but we have been living through this universe for so long it is difficult for us to understand.

Beyond Space & Time: Quantum Theory Suggests Consciousness ...
Metaphysics is a legitimate aspect of human thinking. Sometimes it can trigger Science.

The Hyperspace of Consciousness is one of the most intriguing and thought provocative books I've had the pleasure of reading, and I'm excited to be able to introduce it to the PSICAN readers. If you are looking for some mind blowing frontier scientific thoughts, that discuss synchronicity, consciousness studies, spirituality, cosmic evolution, UFOs, a possible alien intelligence, and a newer approach to SETI this book will captivate you.

Massimo Teodorani – The Hyperspace of Consciousness ... He obtained his “ Laurea ” degree in Astronomy and his Ph.D. in Stellar Physics at the University of Bologna. His book, The Hyperspace of Consciousness is readable and available to the non-scientists among
