As "The Master Switch" artfully shows, the government often has a role that no company will play on its own. THE MASTER SWITCH The Rise and Fall of Information Empires

Book Review - The Master Switch - By Tim Wu - The New York ...

Winner of the 2011 Business Book of the Year Award The Internet Age: on the face of it, an era of unprecedented freedom in both communication and culture. Yet in the past, each major new medium, from telephone to satellite television, has crested on a wave of similar idealistic optimism, before succumbing to the inevitable undertow of industrial consolidation.

Amazon.com: The Master Switch: The Rise and Fall of ...

The Master Switch chronicles what becomes called "The Cycle" through several iterations across radio, TV, cable, and finally the internet. This cycle is series of shifts in an information technology's status from hobby to rapid innovation to monopolization to possible reopening.

Tim Wu - Wikipedia

Master Switch is a modern history book about the rise and fall of information and the technology (and people) that facilitated it. As a technologist I find it to be a required listen for anyone interested in technology and media with the hope that there are many lessons to learn.

The Master Switch: The Rise and Fall of Information ...

Subtitled 'The Rise and Fall of Information Empires' Tim Wu's book is a tour de force history of the four great information technologies of the 20th Century - the telephone, radio/television, movies, and the internet. The book is both a history and an analysis of these industries. The lessons we can draw from the stories he tells have serious ...
