The Organized Mind: Thinking  
Straight in the Age of  
Information Overload. No  
wonder, then, that the  
average American reports  
frequently losing car keys  
or reading glasses, missing  
appointments, and feeling  
worn out by the effort  
required just to keep up.  
But somehow some people  
become quite accomplished at  
managing information flow.

## **The Organized Mind - Wikipedia**

In the best-selling *The Organized Mind: Thinking Straight in the Age of Information Overload*, neuroscientist Daniel Levitin argues that the problem with the proliferation of information isn't as much about the storage of the information as it is about organizing and retrieving that information. The human brain is incredible at storing data; the challenge is summoning up the right stuff
