*The Peace of Wild Things focuses on the personal reaction of an individual to the future state of the world brought about by current anxieties which can only be quelled by a visit to wild nature. The main theme then is the human world versus the natural world, the here and now against the future.*

*Wendell Berry's 'The Peace of Wild Things', 1985, highlights how the wild can be seen as a safety net for those who are overwhelmed by the lifestyle and captivity of society. Berry invites us to share the experience of living on the outskirts of society, where he embraces life without the suppression of society's morals and expectations.*
