The Political Economy of Economic Policy – IMF F&D

This book examines how a society that is trapped in stagnation might initiate and sustain economic and political development. In this context, progress requires the reform of existing arrangements, along with the complementary evolution of informal institutions. It involves enhancing state capacity, balancing broad avenues for political input, and limiting concentrated private and public power.

Political Economy Definition – investopedia.com

Political economy is the study of production and trade and their relations with law, custom and government; and with the distribution of national income and wealth. As a discipline, political economy originated in moral philosophy, in the 18th century, to explore the administration of states' wealth, with "political" signifying the Greek word polity and "economy" signifying the Greek word ...
