The Racing Driver The Theory

There is an especially odd section where he talks about speaking in tenths to describe racing conditions that essentially has nothing to do with racing theory or practice. Just when you think things are going to get informative, the author reflects on how he a driver got into a situation and confidently got out of it, but leaving all the details out and attributing it to some sort of ethereal ...

The Racing Driver The Theory And Practice Of Fast Driving

Critical race theory is an analytical framework to analyze institutions and culture. Its purpose is to divide the world into white oppressors and non-white victims. Instead of traditional forms of knowledge, it uses personal narratives of marginalized minority [victims] groups (blacks, Hispanics, Asians) as irrefutable [evidence] of the dishonesty of their mostly white heterosexual ...

Jim Richards (racing driver) - Wikipedia

During a grand prix, it's easy to think that Formula One racing begins and ends with the driver. After all, the purpose of having such strict regulations about the car is to eliminate all variables except for the skill and expertise of the driver. But a Formula One driver is just one member of a huge team that employs hundreds of people.
