**The Social Roots of Risk argues against the
widespread notion that cataclysmic occurrences
are singular events, driven by forces beyond
our control. Instead, Kathleen Tierney contends
that disasters of all types-be they natural,
technological, or economic-are rooted in
common social and institutional sources.**

**Rather than being acts of God or random acts of
nature, risks and disasters are produced by the
social order itself—that is, by the activities of
institutions and organizations that push for
economic growth, oppose risk-reducing
regulations, and succeed in transferring
disaster losses to other parties.**
