The problem with metrics like the SAT is that people always attack their strength - their validity and reliability - instead of their potential weaknesses - their social and cultural costs. People want to tear down the tyranny of the number but it's perhaps better to think of tearing down the tyranny of the use of the number.

The Tyranny of Metrics - The Key Point
The drive to institute metrics often arises from the best of intentions, as a purported solution to real problems. And in some cases, as we'll see, it really does fulfill its promise to provide such solutions, or at least contributes to solving problems. But after decades of experience with the negative effects of metrics, as metric dysfunction threatens to cascade into yet more institutions ...
