Values Factor: The Secret to Creating an Inspired and ...
Your ultimate or relatively unchanging core value dictates your infinite journey the most. Your transient, changing, crusted hierarchy of values dictates your series of transient finite destinies. The more important a value is – the higher it will be on your hierarchy of values and the more discipline and order you will have associated with it.

Exploratory Factor Analysis in R | R-bloggers
Factor is a data structure used for fields that takes only predefined, finite number of values (categorical data). For example: a data field such as marital status may contain only values from single, married, separated, divorced, or widowed. In such case, we know the possible values beforehand and these predefined, distinct values are called ...
