Traditional trade-off theory and pecking order theory are most acceptable theories of capital structure. As the traditional trade-off theory asserts, firms have one optimal debt ratio (target leverage). In comparison the pecking order theory implies firms' preference to internal finance over external finance and debt over equity.

Finance Theory - an overview | ScienceDirect Topics

Review of the Three Financing Theories The capital structure irrelevance theory proposed by Modighani and Miller (1963) holds that a firm's value is not affected by its capital structure. The theory, however, was proposed under some strid assumptions, such as frictionless markets, no tax, no bank- ruptcy costs, and no growth.
