purchased a truck with a non-working TK MD-II SD unit. I do automotive a/c repair and am not well versed in reefer units. Here is what happens when the unit is powered on at the controller on the dash: it flashes a set of numbers on the display as pictured below. I assume this is a code of sorts and have no diagnostic or user material for this unit.

Thermo King MD-200 / MD-300 / MD-200 MT  
systems employ two high output, belt driven  
fans that are powered by the system's diesel  
engine. This creates a large volume of high  
velocity air, which results in increased air  
circulation throughout the entire cargo area.
