Thinking, Fast and Slow - Wikipedia
In the highly anticipated Thinking, Fast and Slow, Kahneman takes us on a groundbreaking tour of the mind and explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. Kahneman exposes the extraordinary capabilities—and also the faults and biases—of fast thinking, and reveals t

Marathon lessons from Molly Seidel: train slow to run fast ...

Yesterday is in the books, and tomorrow may not materialize the way we envision. But today was given to us so that we might take care of eternity. And God has appointed a customized, tailor-made grace for today, including grace to slow down and do less when less is more - a pace that Paul describes as walking, not sprinting.

Daniel Kahneman: 'Clearly AI is going to win. How people ...

But perhaps it doesn't need to feel this way. Our experience of time is flexible, speeding up in some situations and slowing down in others. There are even some altered states of consciousness (such as under the influence of psychedelic drugs, in traumatic situations, or when athletes are "in the zone") in which time seems to slow down to an extraordinary degree.
