It is basically a search engine for that lets you search from more than 466 billion pages on the internet for the obsolete books for free, especially for historical and academic books.

Is the Brain a Useful Model for Artificial Intelligence ...
The Thinking Machine stories contain examples of: Abduction Is Love: In "The Mystery of a Student" a Mad Artist abducts the woman who was his muse when he learns she does not return his love. Alcatraz: In "The Problem of Cell 13", Van Dusen accepts a challenge to escape from a death row prison in an 'inescapable' prison within a week. He does so in a truly spectacular fashion.

Thinking Machines: The Quest for Artificial Intelligence ...
A fun, though very uneven collection of The Thinking Machine stories. A character that almost didn't quite make it to top. The character's most famous story, The Problem of Cell 13 is a book classic, but the other stories just don't quite have it. Still, a very entertaining read.

The search for a thinking machine - BBC News
Jacques Heath Futrelle (April 9, 1875 – April 15, 1912) was an American journalist and mystery writer. He is best known for writing short detective stories featuring Professor Augustus S. F. Van Dusen, also known as "The Thinking Machine" for his use of logic. He died in the sinking of the Titanic.

Thinking Machine 35: All Inside on Vimeo

One of the most famous "locked-room" mysteries ever written, "The Problem of Cell 13" explores a locked-room mystery starring super sleuth Professor Augustus S. F. X. Van Dusen, aka The Thinking Machine. The Professor appeared in nearly 50 other stories, and this collection presents twelve of the very best. Loaded with Edwardian period flavor, the realistic tales anticipate many of the major

Thinking Machines The Inside Story

This is the story of how Thinking Machines got the jump on a hot new market -- and then scored big time. Until W. Daniel Hillis came along, computers more or less had been designed along the

Thinking Machines The Inside Story Of Artificial ...

His book, *Thinking Machines: The Quest for Artificial Intelligence and Where It's Taking Us Next*, serves up the background readers need to understand why such luminaries as Stephen Hawking and Elon Musk have warned us that AI poses a grave threat to our future as a species—while others like Ray Kurzweil, a pioneer in the field, predict a new Golden Age.

The Thinking Machine (Literature) - TV Tropes

"They use the radio waves to talk, but the signals don't come from them. The signals come from the machines." "So who made the machines? That's who we want to contact." "They made the machines. That's what I'm trying to tell you. Meat made the machines." "That's ridiculous. How can meat make a machine? You're asking me to believe in sentient meat."
