### Everything You Need to Know about Mewing | Jawline Exercises

Press your whole entire tongue on the roof of your mouth. Cover as much surface area of your upper palate as you can. Focus on the back, by your wisdom teeth. Since the roof of the mouth is curved, you won't be able to get it completely flat. So just contour your tongue to cover as much surface area of the roof of your mouth as you can. Again, focus on making sure the back third of your tongue is on the roof of your mouth.
