Science Fiction: The 100 Best Novels - Wikipedia
The best science fiction stories are not "ABOUT" science fiction. Any story that is about science fiction would be incredibly boring and no one would be likely to vote for it to be on the list. The Road, like most good novels (I don't personally find it to be great, just somewhat good), is about people.

Top 10 Most Influential Science Fiction Writers - Listverse
The best science fiction authors are often described as some of the most creative minds in the world. Yet, this is such a genre that is as easy to love as it is difficult to define. The world of sci-fi is a unique experience as, unlike other genres, it allows for an author to take their imagination to new limits and thus provide a surreal experience for their readers.

Author Stanislaw Lem is quite likely the best science fiction writer ever, and this is his final novel. His characters and their qualities (and defects) of being human affect his stories so much that some readers don't consider him a real science fiction writer, despite the presence of spaceships and aliens. Love him or hate him, he's unique.

15 Best Modern Science Fiction Books of 2020 [UPDATED]
He might be both the best and the most influential science fiction writer ever. H.G. Wells' classic books are still read and loved today.
