Cincinnati Industrial Auctioneers | Hallmor, Inc ...

The 63 mm recess units had a chuck of TOS manufacture while the rarest version, the 55 mm, was fitted only to very late-model examples. A very useful and well-made 4-speed powered vertical milling head was also manufactured (it was mounted on back of the lathe bed) and turned the lathe into a compact "machining centre".

1. Fiberglass Insulation. Fiberglass is a great way to insulate an existing wall. While fiberglass often comes in batts, it does come in loose fill form as well, making it easy to install without tearing open any walls. With a small hole and a pump, you can insulate your existing walls with minimum fuss.
