The weekly and the daily both line up clean on enph and the are following the Fib levels up. Each of the moves have been measured moves. The first move from 1.39 to 7.63 was 634 points and the move retraced 38.2% to begin the current move. This move started at 3.76 a 634 point move be near a completion...

How Measured Moves in Markets Can Show You Profit Target ...

As is the norm and I have explained in the past, when it comes to measured moves, you have to think in terms of trade entry to completion. The market is continuously evolving and for the purposes of any trader's objective, you simply need to determine what a reasonable movement would be. Reasonable moves, as far as we are concerned, are full, round circle transitions.
