Training Tenor Voices : Richard Miller : 9780028713977

Training Tenor Voices combines these resources with Miller's keen insight and experience as a performer and teacher. The book is constructed "organically"--as is the healthy singing voice. It systematically studies the issues of breath, support, phonation, resonance, registration, range extension, classification, problem assessment, and daily maintenance.

Training Tenor Voices: Richard Miller: Amazon.com: Books

Training as another vocal type (e.g., singing too frequently in a tessitura that does not match that of the natural instrument, expecting the voice to reach higher pitches because a singer is thought to be a different or higher type, etc.) can place strain on the voice, not to mention create a great deal of frustration and discouragement and a lack of success in the singer who can't seem to ...

Training tenor voices (Book, 1993) [WorldCat.org]

It lists the common tenor problems, how they are fixed, and discusses specific problems within each subcategory of tenor voice (leggiero, lyric, spinto, dramatic). A great tool for teachers and students alike, this book gives cold hard facts and solutions to singing tenor.

Training tenor voices (1993 edition) | Open Library

the dramatic tenor has a range from the B one octave below middle C (B2) to the B one octave above middle C (B4) as well as a powerful voice capable of reaching up to 120dB. Each of these types of tenors can vary depending on the role being played, the age of the singer himself (a voice tends to get deeper as it ages), training, and practice.

Understanding Vocal Range, Vocal Registers, and Voice Type ...

A voice type is a group of voices with similar vocal ranges, capable of singing in a similar tessitura, and with similar vocal transition points (). Voice classification is most strongly associated with European classical music, though it, and the terms it utilizes, are used in other styles of music as well.. A singer will choose a repertoire that suits their instrument.

Voice type - Wikipedia

Tenor – A high (adult) male voice; Bass – A low (adult) male voice; Arrangements for these four voices are labeled SATB (for Soprano Alto Tenor Bass). The ranges of the four voices overlap, but singers may find themselves straining or getting an unpleasant sound at the top or a weak sound at the bottom of their ranges.
