Pohl, C. (2014). From complexity to solvability: The praxeology of transdisciplinary research. In Transdisciplinary Sustainability Studies: A Heuristic Approach (Eds P. Tapio and K. Huutoniemi). Routledge.

(ebook) Transdisciplinary Sustainability Studies ...

Transdisciplinary sustainability research aims to mitigate or to solve complex societal problems and advance the production of scientific knowledge. This book presents a heuristic approach to transdisciplinary sustainability research. The case studies confirmed previous findings cited in Section 1.2 stating that the generation of effects at a greater scale is not necessarily a linear process.
