In the current COVID-19 context, risk governance has arguably never been so important. To celebrate International Day for Disaster Risk Reduction 2020, and this year's theme "it's all about governance", we reflect on lessons learned from SEI's resilience and disaster risk reduction (DRR) work and highlight how to ensure effective governance for transformative DRR.

Transforming Cities: Contested Governance and New Spatial ...

It documents the intended and unintended consequences—beneficial and negative—arising for both Indigenous and non-Indigenous Australians from the realities of contested governance. The findings suggest that the facilitation of effective, legitimate governance should be a policy, funding and institutional imperative for all Australian governments.

Transforming Cities Contested Governance And

Transforming Cities examines the profound changes that have characterised cities of the advanced capitalist societies in the final decades of the twentieth century. It analyses ways in which relationships of contest, conflict and co-operation are realised in and through the social and spatial forms of contemporary urban life. Divided Cities/Contested States Working Paper No. 10, 2009

City governments own or regulate vacant land and abandoned structures. In this article, the authors summarize new vacant-land survey data, examine the conditions and causes of vacant land, analyze city policy toward vacant land, and explore the possible interconnections among conditions, causes, and policies.
