I am easily able to record tedious, repetitive work, then edit the delays to complete the work automatically in far less time than I could do so manually. Combined with the amazing

amount of functionality it has, including if/else statements (if this happens, do this, else do that), pause, prompt, set clipboard, etc., I find it to be invaluable.

This is a normal state of affairs, and there isn't much we can do about it. Let's change our Blog and Post to use GUID keys instead of integers. By default, EF Core performs client generation on GUID keys, meaning that it generates a new GUID itself instead of having the database do it, as is the case with IDENTITY columns.

That means the impact could spread far beyond the agency's payday lending rule. "The holding will call into question many other regulations that protect consumers with respect to credit cards, bank accounts, mortgage loans, debt collection, credit reports, and identity theft," tweeted Chris Peterson, a former enforcement attorney at the CFPB who is now a law professor at the University of Utah.
