Contents Wire and cable markers

When I set out to investigate this question, I would not have guessed that it would turn out to be as much of an odyssey as it did. For most products, determining the need for a CE Mark is relatively straightforward, but not for wire and cable products! As equipment designers, engineers and technologists, we rarely think much about wire and cable.

UL Issues First Wire and Cable Verified Mark in Japan | UL

As a designer of electric wire and cable I deal with this topic on a daily basis. Unfortunately statements such as "PUR can never satisfy a bundled fire test," are inaccurate and misleading. PUR (Polyurethane) can be and is used as a cable jacketing compound on UL listed cables that pass the UL Large Scale Cable Flame Test (bundled fire test).
